

# Limited Dental Warranty

The dental care you receive conforms to a very high standard of care, and we are very confident in assuring you of a lasting comfort and quality. Our practice is proud of the dentistry that we provide for you and your family. Our goal is not only to correct any dental problems you may presently have, but also to show you how to prevent problems in the future. Preventative action will save you time and unnecessary expense. The long-term success of the dental treatment that we provide for you depends greatly upon your daily home care of your teeth and gums. Regular professional cleanings, exams, x-rays and fluoride treatments are also very important. The products recommended by our office for you and the frequency of your professional cleaning and check up visits depend on your individual condition. These recare visits may be every two to six months depending on your overall dental health. With that in mind, we offer the following limited dental warranties:

- **Composite (tooth colored) Fillings** – If a composite restoration is the recommended treatment of choice, we will replace or repair it in the event of failure for a period of **2 years**. If the filling replaces the biting edge of the tooth, the pressure may exceed the strength of the resin composite. Repeated fracture of this edge may necessitate using a stronger porcelain crown. **You must keep ALL regular prescribed recare appointments (minimum every 6 months) and use recommended hygiene protocol or this warranty is null and void.\***
- **Crowns, Onlays and Porcelain Veneers** – We will warranty these procedures for a **full 5 years**. We will replace or repair them at no charge for the first five years. This does not include accidents that could also break normal, healthy teeth. **You must keep ALL regular prescribed recare appointments (minimum every 6 months) and use recommended hygiene protocol or this warranty is null and void.\***
- **Dentures and Partial Dentures** – We will warranty dentures and partials for a period of **1 year** if a tooth chips or breaks, or a flange breaks under normal use. This warranty does not cover accidents such as dropping your denture. Full upper and lower denture patients must be seen once every 12 months. **Patients with some of their own natural teeth must keep ALL regular prescribed recare appointments (minimum every 6 months) and use recommended hygiene protocol or this warranty is null and void.\***
- **Implants fixtures and abutments** - We will warranty these procedures for a **full 5 years**. We will replace or repair them at no charge for the first ten years. This does not include accidents that could also break normal, healthy teeth. **You must keep ALL regular prescribed recare appointments (minimum every 6 months) and use recommended hygiene protocol or this warranty is null and void.\***

\*NOTE: Failure to have these regular office visits with our office voids all warranties. Help us to help you maintain your teeth for a lifetime!
